

sedus

high desking

## Into the future.

Places of inspiration instead of places just to work. With mastermind high desk and temptation high desk, Sedus is offering two separate ranges that combine all the advantages of modern high-desk concepts. Whether for temporary working, as a place for communication or as somewhere to meet during coffee breaks, they promote cooper-

ation and efficiency. The reason is that meetings in a standing position are livelier, usually take less time and are mostly more productive. At the same time, working at a high desk favours spontaneous changes of posture which have a positive effect on health.

Apart from this, mastermind high desk and temptation high desk can not only use spaces more efficiently but can also help to organise spaces in line with modern-day needs and sensibilities. This is a not-to-be-underestimated advantage when it comes to attractiveness as an employer.

**mastermind high desk.**  
High desking in its most aesthetic form.

**temptation high desk.**  
High desking with intelligent functionality.

# Every team needs an identity: mastermind high desk.

mastermind high desk convinces at first glance thanks to a clear design that allows and encourages functional versatility. From the harmonious edge contours to the filigree legs, this high desk radiates a pleasantly restrained aesthetics. Understatement or style statement? In any case, a sophisticated design brought into focus by the premium materials and surfaces with which mastermind high desk can be individualised.

**Handsome.** The foot railing made of chrome-plated tubing, plus the corner and connecting nodes, together form a single unity that is harmonious in terms of design and functionality. The slim, conical legs give the silhouette its characteristic appearance and are attractive and distinctive features of mastermind high desk.

**No cables, no frills.** The optional electrification module that can be retro-fitted at any time is hidden beneath the desk top and can be slid from one end to the other.

**Attractive.** The appealing design allows the creation of meeting points where people like to get together – also in cafeterias and rest zones.

**A good feeling.** High quality down to the smallest detail. The shaped hand-made edges are pleasing to the eye and are soft to the touch. Up to nine careful work steps are needed to give mastermind high desk this very special finish.

# Maximum functionality: temptation high desk.

Sedus temptation high desk was developed for all kinds of high-desking work. It is suitable as a meeting point in the middle zone of an office as well as a place of communication in entrance areas, showrooms, or recreational spaces. It brings an innate quality during presentations, meetings and brainstorming.

Among its greatest strengths are the numerous options with which temptation high desk can be fitted with for almost every task. This is possible on a larger scale as well: simple interlinking elements make it possible to create a long high bench from several individual high desks. What variant you decide on is up to you. temptation high desk can also be used to increase the efficient use of available space as it can be positioned in places that were previously unused.

**Always to hand.** The integrated power, network and data interface enables very short set-up times and, together with the optional computer holders under the desk top, make for an uncluttered appearance.

**Untiring.** Standing restfully at a desk that is 1050 mm high or sitting comfortably thanks to the stainless-steel foot railing.

**In the picture.** Individual media equipment made easy. The mobile *monitor caddy* and the high desk with media wall, together with concealed cables, enable elegant mounting of the monitor.

# Fully prepared for spontaneity.

Whether high desking with mastermind or with temptation, both models encapsulate the advantages of the high desk concept. Depending on the desired use, the two systems can be exactly equipped in the way that is best for the wellbeing and effectivity of the employees. The well thought-out accessories enable the workplace to be organised in such a way that new users wanting to work at the desk temporarily are given optimum support.

**Useful.** Most of the accessories can be attached to the optional multi-function rail without any tools. The entire width of the desk is therefore available for working.

**Good team.** In combination with the Organizer, the shell provides privacy and storage space.

**Practical.** The function bridge can be fitted with a large selection of accessories.

**Variable.** The "sail" screen and the monitor holder are adjustable according to the needs of very different users.

**Because life at work  
is not a black-and-  
white affair.**

Numerous surfaces, including exquisite real-wood veneers, underline the quality of mastermind high desk, mastermind flow and temptation high desk. They are also especially durable and can be attractively individualised.

# Sustainability down to the smallest detail.

Sustainability and “Made in Germany” quality are among the central corporate principles that Sedus has adhered to for more than 50 years. Principles that the Sedus temptation high desk and mastermind high desk also embrace and that reflect recycling-oriented product design, ecologically tested materials, resource-sparing and energy-conscious manufacturing and permanent quality tests.

Solvent-free powder coating instead of conventional paint is therefore used to make the desks. The use of selected woods from sustainable local forests is also part of Sedus’ philosophy of quality and sustainability.

You will find more information at [www.sedus.com](http://www.sedus.com)

### Innovative laser edge.

Superb seamless edging that combines robustness, attractiveness and environment-friendliness harmoniously.

### Sustainable and near.

Real-wood veneers from sustainable local forests are not only fascinatingly beautiful but also reduce the number of kilometres over which the wood has to be transported.

### Powder coating instead of paint.

For finishing and as a protection against rust, we use high-quality powder coating, which is more environmentally compatible.

Around the world, Sedus adheres to the principles of the UN Global Compact for human rights, labour standards, the environment and anti-corruption.
