

grand slam

sedus

**A clutter-free  
workplace for  
clutter-free minds.**

grand slam, the universal storage system from Sedus, creates just that: the right work setting and the right work mindset. It provides space for everything one needs in the office. And grand slam's infinite variety of uses and arrangements creates a good atmosphere. Such perfect functionality combined with such attractive features can only mean one thing: this is Sedus Place 2.5 – the new office culture of productive well-being.

**A stylish outfit.** The coat racks from the grand slam range are practical in daily office life.

# Storage with style.

Those who view storage units, shelving and pedestals just as components of furniture systems should take a closer look. Sedus grand slam transforms them into design features with endless creative possibilities. The versatile storage components can divide and structure spaces, foster communication among employees and create an atmosphere which is pleasant to work in, motivates and enhances productivity. The flexible range caters to all needs and all style preferences. From open-plan spaces to single offices; from large companies to home offices. From distinguished to cheerful; from warm and homely to clean and functional.

## Beautifully practical.

Flexible modular top boxes, which can be combined in a myriad of ways, make for decorative focal points and offer additional storage space.

# This is what efficiency looks like.

Every type of office places different demands on a storage concept. For example, in the director's office, prestige is a priority whilst in the open-plan office, the emphasis is on best use of space, sound absorption and facilitating

workflows. Communicative structures are needed for intensive teamwork whilst quiet “islands” are most important for concentrated thought. For all requirement types, Sedus grand slam has the fitting solution. It also

makes financial sense because the large selection of variants and finishes facilitates differentiated pricing. And every detail offers that durable quality one can expect from Sedus.

## Inspiring surroundings for brainworkers.

This kind of versatility is unique: storage units and cabinets with flexible interiors and a range of front variants. Open shelving and add-on modules with added utility, such as the innovative swivel-out communication element that forms a variable meeting table. Who ever said that storage space can't be flexible?

**Perfectly styled.**

A special feature of grand slam is the fashionable finishes and free forms, which are the physical

manifestation of a new attitude that is becoming more prevalent: working time is also living time and workplaces must reflect that.

**A world of limitless possibility.**

**Versatile.** Storage units are available in a range of dimensions, as a single unit or a wall system.

**Practical.** The drawers are available with plinths, adjustable glides or sled legs, as well as with a comfortable upholstered seat top.

**Striking.** The shelves and sides of the partitions are accentuated by different material thicknesses.

**Practical.** Cabinets provide storage space and divide up spaces – available in three heights.

# Goods acoustics are vital for a pleasant atmosphere.

Well-being and productivity in the office depend heavily on the room's acoustics. Group and open-plan offices especially present a major challenge on this front. Even more so when the structures in the space have non-absorbent surfaces such as glass, stone, concrete or metal.

Sedus grand slam provides perfect office storage solutions coupled with effective sound absorption. Storage units are used as soundcreens and improve hearing what is said. Acoustic fronts and back panels absorb distracting noises and reduce the echo time in the office.

Microperforated **horizontal tambour front**. The perforated acoustic front on this horizontal tambour unit transforms it into a broad-spectrum absorber (see also large illustration).

**Sliding door unit** with acoustic front. The slits in the front make for effective sound absorption.

**Hinged door unit** with acoustic front. The slits have similar sound-absorbing properties here.

Storage units can be fitted with an acoustic **fabric back panel**. An aluminium frame retains the 18 mm-thick absorber foam with perforated and fabric-covered hardboard.

# grand slam is design freedom.

The choice of materials, finishes and colours for Sedus' storage system "grand slam" is unparalleled in the office furniture sector. It gives every office its own individual and unique flair. Various styles and colour schemes can be systematically worked out down to the finest detail. Whether the concept is minimalist reduction or bright splashes of colour, a distinguished character or homely feeling – all this is possible. But one thing always stays the same: the quality, of which the Sedus name is a guarantee. After all, the feeling of having an excellent, individual working atmosphere is also a part of "productive well-being".

## Painted fronts

**R10** paint green  
**R11** paint red  
**R12** paint orange

## Glass fronts

**C11** Oak natural  
**B26** Beech natural  
**B21** Beech mid brown  
**B23** Beech walnut varnish

# Perfection is in the details.

With an abundance of well-conceived features, grand slam helps to create a well-organised, efficiently run office. It makes for an office

where everything has its place and is easy to find when needed. It makes best use of the available space.

**Side racks.** To make use of the sides of the units.

**Variable racks.** Available in different heights and with a variety of functions.

**Continuous handle.** To allow convenient opening of sliding door units.

**Brochure trays.** The slanted trays are folding and provide plenty of storage space.

**Knobs.** Integrated lock with hinged key; also available without lock.

**D-handles.** Available with a range of finishes, without or without lock.

**Concealed hinges.** With an opening angle of 120 degrees.

**Wide-angle hinges.** Opening angles of 210 degrees and optimal functionality.

**Plinth with adjustable glide.** User-friendly adjustment.

**Metal supports.** For rock solid, absolutely secure shelves.

**Pull-out wardrobe rail.** A practical and space-saving wardrobe solution.

**Organiser drawers.** With variable dividers, trays and card holders.

**Pull-out filing shelf.** Provides an additional shelf as required.

**Steel shelf.** With mount for suspension filing frame on the underside or pull-out filing shelf.

**Safe.** Lockable drawer for keeping personal valuables safe.

# Key strengths: teamwork and communication.

Who says cabinets have to be placed against the wall? Sedus grand slam turns storage units into versatile furnishing elements which play an important part in teamwork and communication in the office. Cleverly used storage elements divide and structure the space, creating workstations where one can concentrate on one's work as well as communicative areas that are conducive to teamwork.

Drawers at seat height double as a bench for one-to-one conversations, whilst a filing cabinet can be a convergence point for passing on information to one's colleagues. Handy additional modules such as the communication element transform a cabinet into a meeting table at a second's notice.

**We're working on a good working atmosphere. For the entire world.**

Sustainability and environmental protection are important to Sedus. Sedus was the first furniture manufacturer in Europe to introduce an eco-management system conforming to the EU's Eco-Management & Audit Scheme (EMAS) back in 1995. Sedus has been certified to the international environmental standard ISO 14001 since 2001.

Sedus' principles of ecological business practice are laid down in the corporate policy, which is binding for all employees and suppliers. However, Sedus' most enduring contribution to environment and climate protection is this: the durable quality of all Sedus products.
