## se:lab

*Solutions for  
agile working*

Including many  
planning examples  
for various  
applications

# Who we are and what we do

Sedus Stoll AG was founded in 1871 and is one of the leading European manufacturers of office solutions. The product range includes seating furniture, such as swivel and visitor chairs, as well as office, conference and contract furniture – all “Made in Germany”.

The company headquarters is located in Dogern on the High Rhine in southern Germany. Another production site is in Geseke, North Rhine-Westphalia. Sedus is a company with a long tradition and 150 years of company history that has repeatedly set standards – in terms of ergonomics, manufacturing processes and sustainability. As a synonym for innovation, technology and aesthetics, Sedus constantly enriches the “office world” with new product ideas and contemporary concepts. Sedus puts a strong focus on current trends and changes in the world of work. New organisational structures and forms of work require flexible, aesthetic furnishings and custom-made solutions that enhance collaboration, communication and movement. A particular emphasis is placed on the health and well-being of the users.

For further information, go to [www.sedus.com](http://www.sedus.com)

With our solutions, we support people in expressing their genius at work.

# Why se:lab?

se:lab enables  
**more flexibility**  
for your daily tasks

Simply practical –  
all furniture is  
**intuitive to use** and  
**reduced to the essential**

In 2020, the three most sought-after competencies were:

**#1 Problem solving**  
**#2 Critical thinking**  
**#3 Creativity**

[Source: Sedus INSIGHTS N°6]

**Light and modern design**  
that looks good and is fun

As agile as your team

## se:lab adapts to any work situation

 Workshops →  Group work →  Presentations

**Stay mobile:** Many se:lab products are equipped with castors, making them easy to take along or reposition

The interior design colours follow the Sedus colour scheme "Urban Living" –  
more information can be found on page 44.

# Ideas are free

Different structures, different requirements, new work concepts: Modern offices are increasingly being transformed into open spaces and are characterised by communicative in-between zones, decentralised work areas and different types of rooms. There is a need for more flexibility in order to give free rein to thoughts and ideas. For productive and creative work in agile teams – exactly what se:lab optimally supports.

The name already reveals that the approach to tasks was inspired by laboratory work. se:lab works in the same way as analysing, researching and problem-solving takes place in a lab. Whether for workshops where flexible furniture is required or for spontaneous meetings that benefit from the use of mobile equipment, se:lab offers plenty of possibilities and is always ready for use.

Experience the se:lab family in action in the video on our website

Typical use scenarios for se:lab are:

## Agile working

(Planning examples from page 24)

Being flexible, agile and spontaneously productive in freely configurable work areas

Typical applications:

- Project organisation with Scrum
- Kanban management method
- Solving problems with Design Thinking

## Smart working

(Planning examples from page 28)

Changing between fixed and flexible workplaces with predefined or free structures

Typical applications:

- Open-plan offices and open spaces
- Lounges and creative areas
- Bench and desk sharing

## Multifunctional rooms

(Planning examples from page 32)

Use free space as it is needed – without compromise

Typical applications:

- Seminar rooms
- Meeting rooms
- Rooms for training courses

DESIGN THAT FITS, ALWAYS

# A high-performance system

The se:lab products follow a modern, harmonious design language with high recognition value. All components can be individually combined and allow great freedom of design. Thanks to their lightweight construction, castors and other details, they can be operated intuitively and wherever needed. se:lab can also be easily combined with other Sedus products such as the se:fit standing seat or the se:motion swivel chair.

The interior design colours follow the Sedus colour scheme "Smart Balance" –  
more information can be found on page 44.

#### se:lab work desk

- Height: 740 mm
- Optional: castors

# Single and team desks

## **se:lab work desk – straightforward work desk for every occasion**

Whether as a single workplace or as a conference table, se:lab work desk promises easy and flexible working. The four-legged desk with a modern design can be used for any work situation, almost anywhere. Optional castors enable it to be moved freely throughout the room.

## **se:lab bench – collaboration made easy**

Whether temporary work or in project teams, collaboration or open interaction: se:lab bench brings all these needs together. Depending on work requirements and available space, group and team workplaces can be planned and realised as individually as is best for productivity and atmosphere.

**se:lab bench**

- Height: 740 mm
- One-piece or two-piece table top

Whether temporary work, event-driven use by project teams or permanently assigned team workstations: bench working, i.e., working together at large desks, is nowadays indispensable.

# Work desks for sit-stand working

## **se:lab e-desk and e-desk A (T-leg and A-leg) – electric workstations**

As a height-adjustable workstation, se:lab e-desk offers pragmatic solutions and focuses on alternating between a sitting and standing position. Thanks to its design and the round motor columns, the desk can be harmoniously combined with the other se:lab products.

se:lab e-desk

se:lab e-desk A

### **se:lab e-desk, e-desk A**

- Electric height-adjustment: 650–1280 mm
- se:lab e-desk A with optional castors

#### se:lab twin

- Electric height-adjustment: 650–1280 mm

#### se:lab twin – electric double workstation

Efficient use of office structure and space: se:lab twin is a double workstation that meets these requirements and at the same time encourages a regular switch between a sitting and standing position. The design language and modern look are ideal for bench or spine configurations and agile team offices.

### se:lab tableboard – sit-stand table with whiteboard functionality

se:lab tableboard is a desk that is perfectly adapted to the needs of contemporary office concepts by enabling dynamic working. It is a motorised, height-adjustable mobile desk that can be stacked and stored in a space-saving manner due to its folding desktop. Ideal for agile working styles: Optionally, the desk can be equipped with a rechargeable battery and thus be adjusted in height independent of location. The highlight: The vertically swivelling desktop can be equipped with a writable surface, in addition to the standard melamine colours. This turns the desk into a practical whiteboard in no time at all.

#### se:lab tableboard

- Motorised, height-adjustable: 715–1345 mm
- Stackable in a space-saving way
- With castors (lockable)
- Optional: Desktop with writable whiteboard surface
- Optional: Wireless power supply via rechargeable battery

s e : l a b

# Conference desks

## se:lab meet desk – conference desk

se:lab meet desk promises easy and flexible working. The four-legged desk with a modern design can be used almost anywhere. Optional castors enable it to be moved freely throughout the room.

### se:lab meet desk

- Height: 740 mm
- Optional: castors

### **se:lab high desk – standing desk**

se:lab high desk combines all the advantages of the modern high desk concept: ideal for agile teamwork or as a communicative meeting place. With a height of 900 mm, it encourages spontaneous posture changes, which can have a positive effect on health and creativity. Equipped with castors, se:lab high desk can be easily moved around and is therefore perfectly suited for applications in central office zones and work cafés.

#### **se:lab high desk**

- Standing height: 1050 mm or intermediate height: 900 mm
- Optional: castors

### se:lab fold – space-saving folding table

The timelessly designed folding desk is an all-rounder for different working environments, making it possible to quickly create and reorganise spaces. Due to its folding mechanism and an optional lightweight board, the desk is particularly easy to fold together and can be stored in a space-saving way. As an option, se:lab fold is also available with castors, which are barely visible and are elegantly integrated into the table leg. To move the desk, simply lift one side and push it. Furthermore, the stacking trolley enables space-saving storage for up to twelve desks.

#### se:lab fold

- Height: 740 mm
- Optional: castors
- Optional: stacking trolley  
(for up to 12 desks)

The stacking protection protects the desks from damage during transport and stacking

A rubber strip is inserted in the frame to ensure that it stands safely on smooth floors

The magnetic se:lab wall mount allows the boards to be easily attached to a wall

#### se:lab butler

- Holds one se:lab board M
- For leaning against the wall
- Compact dimensions:  
581 x 510 x 247 mm

s e : l a b

# Workshop tools

## se:lab boards – portable whiteboards

se:lab boards are light, portable whiteboards that can be taken everywhere, thus promoting agile work. Both sides of the whiteboard have a writable, magnetic surface which is also suitable for post-its. se:lab boards are available in two sizes and can be used at workstations, for workshops or spontaneous meetings.

### se:lab board

- Size M: 1300 x 900 mm (6.5 kg)
- Size L: 1800 x 900 mm (8 kg)
- Can be used vertically and horizontally
- Magnetic and writable on both sides

## se:lab caddy – transport trolley

se:lab caddy supports the development of ideas and the possibility to share them with others – no matter where in the company work is done. As a transport trolley, it can hold up to ten se:lab boards. You can also attach a large whiteboard upright to each side to work directly on it.

### se:lab caddy

- For up to 10 se:lab boards
- With magnetic mount
- Also usable as a room divider
- With boards it fits through all standard doors and in lifts

#### se:lab rack – mobile easel

Creative minds use se:lab rack for workshops, agile meetings and teamwork. Equipped with se:lab board, plenty of space is available for creative processes and agile work. The castors make the easel easy to move. It can hold up to four se:lab boards.

#### se:lab rack

- Up to 2 boards L vertically, up to 4 boards M/L horizontally
- Can be used on both sides
- Also usable as a room divider
- With boards it fits through all standard doors and in lifts

#### **se:lab monitor caddy – mobile monitor caddy**

Easy information exchange in video conferences, workshops and agile meetings – made possible with the se:lab monitor caddy. With its comprehensive technology integration and castors, it can be used flexibly and independent of location.

#### **se:lab monitor caddy**

- For monitors of 34–90 inches and a weight of up to 50 kg
- Manual switch with memory function
- Five-metre connection cable
- Integrated 3-way socket
- Shelf for placing a laptop

#### TAKEoSEAT

- Sitting height: 450 mm
- Size when folded down: 400 x 30 x 570 mm
- Size when folded up: 400 x 260 x 490 mm
- Weight: 2.0 kg

#### TAKEoSEAT – folding stool

Whenever a quick and flexible seat is needed, TAKEoSEAT comes into play. The folding stool made of PET felt is lightweight, can be assembled and disassembled in a few easy steps and stored in a space-saving way. The sustainable material consists of plastic recycled materials and is 100% recyclable.

#### se:lab hopper – workshop stool

se:lab hopper is the ideal addition to workshops, project meetings or agile work settings. With a comfortable height of 690 mm, this seating furniture promotes spontaneity and interaction. The workshop stool is easily movable and manoeuvrable. It can be stacked or nested to save space when not in use.

#### se:lab hopper

- Seat height: 690 mm
- Size: 565 x 415 mm
- Stackable (up to 3 chairs high)
- Nestable

#### **se:lab sofa – mobile and adaptable sofa**

Easy to move and flexible, se:lab sofa presents itself as the ideal partner for agile workshop situations and spontaneous interaction. The comfortable seating furniture with its generous upholstery allows the user to adopt a variety of postures – sitting upright as well as leaning back in a relaxed manner. Exceptionally soft and comfortable, the sofa creates an informal atmosphere in any room.

#### **se:lab sofa**

- Size: 1600 x 1100 x 850 mm
- On castors
- Light and agile

The interior design colours follow the Sedus colour scheme "Urban Living" – more information can be found on page 44.

#### **se:lab screen – frameless privacy screen**

se:lab screen provides privacy and screening at the work desks and bench solutions of the se:lab family. Made of PET felt and designed with harmonious contours and rounded corners on all sides, the screen can be integrated easily and used flexibly.

#### **se:lab screen**

- Height: 400 mm plus clamp adapter
- PET felt (light grey or anthracite)

s e : l a b

# Accessories made of PET felt

The se:lab product family is supplemented by accessories and add-ons made of form fleece. The sustainable material is made from recycled PET bottles, is 100% recyclable and contributes to a sustainable product life cycle.

All PET felt elements are available in light grey or anthracite.

## se:lab tray – optional drawer

The PET felt drawer with metal casing can be mounted below any table top and provides uncomplicated storage space for pens, pads and smartphones – also ideal as an addition to meeting tables.

### se:lab tray

- Internal dimensions: 350 x 225 x 70 mm
- Optional: lockable
- Metal casing
- Insert made of PET felt (light grey or anthracite)

SOLUTIONS FOR

# Agile working

Our agile solutions are particularly suitable for companies whose workflows and working methods are geared towards continuous interaction and active collaboration. The work areas are designed in such a way that they promote dynamic processes and are always suitable for the respective situation. Mobile furniture that can be used intuitively and spontaneously is essential for this – so that innovative ways of thinking and new ideas develop on the spur of the moment.

**Typical applications:**

- Project organisation with Scrum
- Kanban management method
- Solving problems with Design Thinking

### Arena

Room designed for supporting active participation in collaborative and communicative work as well as presentations.

### Creative lab

Room or area designed for unrestricted teamwork or collaboration. The various activities and work processes follow a defined schedule, which may cover several days.

## Solutions for agile working

Space requirement: 20 – 48 m<sup>2</sup>

Team sizes: up to 10 persons

	board	rack	caddy	monitor caddy	high desk	sofa	hopper	other products
Arena	6	1	1	-	3	2	9	x
Creative lab	12	2	2	-	2	-	9	-
Pop-up brainstorming	6	1	1	-	-	-	-	x
Project room	9*	-	1	1	1	1	5	x

\* including se:lab wall mount for mounting 6 boards

### Pop-up brainstorming

Area equipped with mobile furniture, comprising a whiteboard and folding stools. The result is a zone that is created quickly and at short notice encouraging collaboration and supporting activities such as brainstorming or presentations.

### Project room

Room dedicated to teamwork on a project or a specific topic. Equipped with furniture and utensils that allow the team to work undisturbed in a collaborative mode for one or more days.

SOLUTIONS FOR

# Smart working

Smart furnishing solutions are particularly suitable for companies characterised by structured work processes and clearly defined and organised collaboration. By combining different pieces of furniture, areas can be created that meet specific requirements. The environment created is suitable for multiple situations and supports individual working methods.

#### Typical applications:

- Open-plan offices and open spaces
- Lounges and creative areas
- Bench and desk sharing

### Shared work area

Work area with desks (fixed or adjustable height) and mobile furniture to encourage dynamic collaboration.

### Creative corner

Collaboration zone with informal work area. Equipped with fixed and mobile workshop elements to support brainstorming, presentations, video brainstorming (interactive screen).

## Solutions for smart working

Space requirement: 19 – 32 m<sup>2</sup>

Team sizes: up to 6 persons

Depending on the working style, a suitable selab desk can be combined with various workshop tools

	board	rack	caddy	monitor caddy	e-desk twin	high desk	bench	meet desk	hopper	sofa	chairs
Shared work area	6	1	1	-	2	-	-	-	1	-	4
Creative corner	6	1	1	1	-	1	-	-	7	1	-
Teamwork	6	1	1	-	-	-	1	-	-	-	4+4
Team meeting	5*	-	-	1	-	-	-	1	-	-	4

\* including se:lab wall mount for mounting 5 boards

### Teamwork

Area with team desk and standing desk. Equipped with mobile workshop elements for collaborative activities in a participative, dynamic and visual way.

### Team meeting

Room with workshop elements that enable meetings in a collaborative and dynamic form.

SOLUTIONS FOR

# Multifunctional rooms

Multifunctional solutions are particularly suitable for companies whose working methods and requirements are constantly changing. The rooms can be used in different ways and the furnishings can be rearranged again and again, so that they can be easily adapted and used for different activities, for example for meetings, training sessions, workshops and presentations.

## Typical applications:

- Seminar rooms
- Meeting rooms
- Training sessions

### Training course

Room equipped for training courses with desks, chairs, monitors and whiteboards. The set-up is similar to a classroom.

### Workshop

Furniture constellations that support workshops and creative activities and can also be easily rearranged to be optimally adapted to changing tasks and situations.

## Solutions for multifunctional rooms

Space requirement: 30 m<sup>2</sup>

Team sizes: up to 9 persons

The room is equipped with mobile, foldable and stackable furniture. This makes it possible to work together in a variety of ways and to easily set up the furniture according to the number of people.

	board	rack	caddy	monitor caddy	fold	chairs
Training course, workshop, meeting, stand-up presentation	12	2	2	1	3	9

**Meeting**

Room equipped with desks, chairs, monitors and whiteboards for meetings, presentations and teamwork activities.

**Stand-up presentation**

Room equipped with desks, chairs, canvas and boards for organising stand-up presentations that can be combined with refreshments.

# se:lab desk overview

Particular design features of the se:lab are the frames made of round tubes in various fashionable colours and the rounded corners of the desktops (radius 50 mm). The standard thickness of the desktop is 19 mm.

## se:lab desks

# As versatile as the surroundings

A harmonious working environment contributes significantly to well-being and productivity. Well-conceived furnishings, pleasant fabric and material combinations as well as the choice of colour accents are key factors for achieving this goal. Whether Smart Balance, Soft Being, Urban Living or Multi Creation – the se:lab products can be modified to suit any of these colour schemes.

## Do you need support in planning and implementation?

The experts from Sedus Workspace Design Team are looking forward to helping you design your modern smart office. From analysing the floor plan and designing the concept to choosing the colour from the Sedus colour cookbook – Sedus offers everything from a single source.

### Smart Balance

light, reduced, quiet, structured, functional, technical

### Urban Living

comfortable, respectable, elegant, urban, intense, timeless

### Soft Being

gentle, calm, balanced, natural, inviting, regenerative

### Multi Creation

motivating, inspiring, creative, dynamic, active, open, free
