

# sedus

## relations

storage programme

### The strengths of the programme

- Elegant design with all-round aluminium frame
- Product family with plinth and add-on units as well as representative lowboards
- Smoothly running sliding doors in aluminium frames
- Optimal use of filing systems and drawers
- Versatile designs with a wide selection of finishes and colours

#### relations storage unit with plinth

5 binder heights, width 1600, anodised aluminium frame, carcass white, sliding doors Zebrano and white melamine

#### relations storage unit with plinth as sideboard

3 binder heights, width 1600, anodised aluminium frame, carcass white, sliding doors red lacquer and white melamine

## Nice and tidy. Sedus relations.

Characteristic of the relations storage unit range is the passe-partout-like frame made of anodised or chrome-plated aluminium that elegantly surrounds the front and at the same time serves to guide the sliding doors. With this special mechanism the sliding doors open over the entire interior width – for optimum access to files, documents and working material. Sedus relations is available as a storage unit with plinth, an add-on unit and a lowboard. The fronts made of real wood veneer, melamine, lacquer or glass can be freely combined and offer a variety of design options.

### Handle options.

Cast aluminium handle, square chrome-plated recessed handle, round recessed handle (from left to right)

### Transparent.

Frosted glass fronts set accents.

### relations storage unit with plinth as sideboard

3 binder heights, width 2400, chrome-plated aluminium frame, carcass white, sliding doors ebony melamine
